

# FACT SHEET

## PATS TRAVEL TO PERTH

The current process for PATS travel to Perth from CKI has been agreed between the WA Chief Medical Officer and IOTHS Chief Medical Officer.

Where possible, a COVID test is done prior to travel. The resident applies for an exemption to travel to WA for urgent and essential medical treatment, with a supporting letter from a medical practitioner.

If an exemption is then granted on medical grounds, the resident can travel to WA. Once in Perth, a further rapid test for COVID may be undertaken.

The resident will be required to self-isolate while in WA and can only leave their accommodation to attend their medical treatment. The resident will return to CKI as soon as their medical treatment concludes.

### **ADDITIONAL FACT SHEETS:**

Additional fact sheets are available on the other key topics that are relevant to Cocos (Keeling) Islands residents. These are available at <https://shire.cc/en/ckicovid19.html>
