

### GONDOLA SHELVING

The DMD Gondola Shelving System is primarily used in retail stores for merchandise display. Gondola Shelving is easy to install in single or double sided applications and can create feature end units on centre aisles.

Shelving units can be used with or without shelf levels to accommodate accessories. DMD Gondola Shelving Systems are supplied with a comprehensive range of versatile accessories to suit various products. This enables frequent, easy to adapt and user friendly changes to suit the retail environment.

#### APPLICATIONS:

- Retail outlets
- Hardware storage facilities
- Auto storage facilities

#### FEATURES AND BENEFITS:

- A variety of sizes available which can be tailored to suit the application
- Metal punch panel backing to suit a range of accessories
- Base shelf is 450mm deep, upper shelves are 400mm deep (other sizes available upon request)
- All upper shelves can be adjusted to 20° angle while using the same shelf bracket
- Shelves are fully adjustable on 50mm increments without the use of specialised tools
- Robust steel construction finished in white durable powder coat
- Upright splicing kits available to increase the height at any time
- Load capacity of 50Kgs per shelf level

#### ACCESSORIES:

- Range of Peg hooks
- Wire baskets
- Wire bin fronts and dividers
- Range of clothes hooks
- Ticket Strips and Shelf labels
- Specialised hanging rails designed to suit requirements
